## PROFESSIONAL BUSINESS GRADE TWO-WAY RADIOS

### SR-2 - SSR2101 & SSR4101

- Watts 128 Channel Capacity • FCC Certified • UHF 450-470MHZ • Weight: 4.4 Ounces

#### Light Weight, Small Profile With Greater Coverage Capacity

Upgrade your communications needs with the **SR-2** Two Way Radio. Radio communications allows for greater accessibility of your staff, decrease response times for resident's emergency needs and increase efficiency of the coordination of your staff with the use of radios.

##### Easy to Carry

Radio can be worn for convenience with included armband, lanyard or belt clip.

##### Flat-Rate Repair Service

If a repair is needed after the warranty period, it will be repaired for \$50.00.

##### One Year Warranty

Insures products are free of manufacturers defects.

##### Longer Battery Life

With a 2000 mAh rated Lithium-Ion Battery, your staff can operate the radios up to 18 hours before needing a charge.

##### LED Screen

Channel, Volume, and other programmable feature can be easily viewed from the display screen.

##### Nurse Call Integration

With the use of the Radio Integration System, Nurse Call Alarms are announced over the Radio.

##### Busy Channel Lock-Out

Ensures your calls will not be missed by preventing transmission of voice while the radio is receiving another signal.
